TIFU by trying to shit on a cockroach (self.tifu)

submitted 7 days ago * by 9deep4u 

This monster cockroach had taken up residence in my bathroom for like the last year but whenever I tried to catch him he would always slip my grasp. About 10 minutes ago I finally corner the bastard in my wife's tampon box. I find a way to maneuver the roach into the toilet without wasting any tampons (because fuck emergency runs to the grocery store for that crap.) and a sense of victory washes over me. But is this enough for 9deep4u? Oh hell no I want this fucker to suffer. I decide I'm going to drop a load on him before I flush him, a dishonorable sendoff. So I get on the toilet and start going to work. It starts coming out and this is one solid log I had been holding on to for about half an hour (because xbox) I aim by looking through my legs, all is going well, the log is right on course. Eventually it makes contact, and this is when all hell breaks lose. The roach goes full rambo and climbs UP MY SHIT towards my asshole! I panic and start jumping around like a 50's housewife who just spotted a rat. Mind you my log hadn't been broken yet so I'm spreading that shit all over the bathroom in the process. Best part? The little bastard got away. Now I'm sitting on my computer procrastinating cleaning my bathroom covered in fecal matter.

TL;DR Tried to shit on a cockroach, got everyhtng but the cockroach.

Edit: New here but I guess this is a thing. Thank you for the gold kind stranger!

This has been through open feedback sessions, closed beta tests, and others The entire project was driven by the cubing community and their excitement about the possibility to solve and interact with the cube puzzles in a new and fresh way, whilst also only requiring them to have access to their phone.

GyroCube VR Crack All Fatal Errors FixedDownload ->>>>> http://bit.. I absolutely love GyroCube VR!!! I've cubing for years, and it's such a cool feeling to finally do it in VR - and executed in such a cool way!Also really appreciate that there's colorblind support, as it's really helpful for people like me.. If you are like me and you know how to solve a Rubik's Cube, this will be a hard buy enjoyable challenge, and it is fun to try and beat your best times.. Personal Statistics and Global Leaderboards! Show your friends that you are better and faster than them! Compete to be part of the Top 4 - and you'll let everyone world-wide see your time to beat.

Secondly, the way you spin the cube is WAY too finicky If you could possibly have some way of holding the cube while trying to move your hands without spinning it, like integrating the triggers on remotes, that would be nice.. b4d347fde0Title: GyroCube VRGenre: SimulationDeveloper:SWUMP, Anders SchouPublisher:SWUMP, Anders SchouRelease Date: 19 Sep, 2018English,French,Italian,German,Arabic,Bulgarian,Danish,Finnish,Simplified Chinese,Greek,Dutch,Japanese,Korean,Norwegian,Polish,Portuguese,Romanian,Russian,Swedish,Thai,Czech,Traditional Chinese,Turkish If you like solving Rubik's cubes you'll like this! It is really challenging taking what you know from outside the cube to inside the cube! Not only that but it also shows you how the cube actually moves in a whole new way. 00 This is a great concept for a virtual reality puzzle game, but when two things that are essential to the gameplay are not working, I cannot in a truthful manner recommend this game.. Apart from a couple of minor bugs I reckon this is the perfect buy for any one who likes Rubik's Cubes and VR.. If you don't know how to solve a Rubik's Cube however, this will likely be very boring and not worth the money.. It plays very well and is satisfying to solve Download Retinopsy VR - Look zipRotund Rebound Download] [hacked]Intrude keygen onlineSpace Pirates And Zombies 2 download for pc [serial number]Disney's The Lion King Ativador download [License]Project Cabin [hack]Seven: Reboot update 8 downloadNIGHT FALLEN Free Download Crack Serial KeySpy Fox in quot;Dry Cereal quot; crack and patchQuicken WillMaker Plus 2018 Keygen.. The game invites everyone to try a couple of cubes for free, whilst providing them tools to see their progression as they become better, whilst also giving them a chance to have their name appear in everyone else's game on the leaderboard. ly/2NlrRHbMirror ->>->>->> http://bit.ly/2NlrRHbAbout This GameGYROCUBE is a Virtual Reality and Mobile puzzle game, that invites everyone to participate in a global challenge; solve the cubes as fast as possible! The game is based on the traditional physical cube puzzles loved by many, that however has failed to inspire a strong and original digital experience - Until now!FeaturesContains the most popular cube configurations (2x2x2,3x3x3,4x4x4, and 5x5x5) - There's a cube for everyone! Series Mode is also available, that requires you to solve all 4 cubes as quickly as possible, in order to compete on the Series Mode Leaderboard.. The cubes can be customised in a variety of colours, such as traditional cube puzzle colour schemes, color blind mode, etc!Community Driven DesignThe entire design process has involved the Cubing community quite heavily.. I want this game to be good I do There are some issues I have with the game Firstly, I am not sure how well the game works on other devices but on the Oculus, the actual pointers for the remotes are too far up, and my remotes seem to be just fine.. Although these issues are small, I would like to point out that this game costed \$9. ae05505a44 [Hp 1215 All In One Driver Free Download](#)
